Warning : You are about to purchase a Fund that is not simple and may be difficult to understand.

### What is this Product ?

#### Type

The Fund is a sub-fund of iMGP, a public limited liability company (société anonyme), incorporated as a "société d'investissement à capital variable" under the Luxembourg law of 17 December 2010 relating to undertakings for collective investment and qualifying as a UCITS. The product offered to you is a Share Class of the Fund.

#### Term

The Fund has no maturity date. It has been established for an unlimited duration and the PRIIP Manufacturer is not entitled to terminate it unilaterally. The Fund and the Share Class may be terminated early and liquidated in those cases set out in the prospectus and the articles of incorporation of the Company.

#### Objectives

The objective of this Fund is to provide its investors with capital growth, principally by investing in transferable securities of Italian issuers.

At least two thirds of the Fund's assets are invested at all times in equities and other similar instruments issued by companies having their registered office in Italy and at least 75% at all times in equities or similar instruments issued by companies based in a Member State of the EU, in Norway or Iceland. The Fund is actively managed not in reference to a benchmark.

The Sub-Manager employs a bottom-up, fundamental research process which can integrate material environmental, social, and governance (ESG) factors as part of an evaluation of a company's financial risks.

The Fund may invest in derivative financial instruments for hedging purposes only, up to a maximum of 30% of the Fund's assets.

The Fund is eligible for the PEA. The Fund is also eligible for the partial tax exemption under GITA; to that purpose, it complies with the specific investment restrictions described in Section 13 of the Prospectus of the Company.

The Fund shall not invest more than:

- 10% of its net assets in units of UCITS and/or other UCIs.
- 10% of its net assets in REITs.

The investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities as per the Taxonomy Regulation.

As part of the aforementioned investment policy, the manager may also invest in derivatives such as index futures (purchase or sale of an index at the prevailing rate, with settlement at a future date) and options (contract entitling the Fund or the counterparty of the Fund to buy or sell a position at a given price at a future date).

The manager may use techniques to partially or fully protect the Fund from its exposure to currencies other than the base currency.

Profits are not distributed but are accumulated by the Fund.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money in less than 5 years.

#### Intended retail investor

This Fund is aimed more particularly at investors who wish to benefit from the performance of shares on the different target financial markets, who are capable of evaluating the merits and risks of such an investment, who are able to bear the loss of their entire investment and who have an investment horizon of at least 5 years.

This Share Class may be subscribed by any type of investor. Investors are advised to invest only a part of their assets in such a Fund.

#### Practical information

Depository: CACEIS Bank, Luxembourg Branch

This Fund is a sub-fund of an umbrella fund (the Company). This document describes the Fund and the share class stated above, while the Prospectus and periodic reports are prepared for the Company. The assets and liabilities of each sub-fund are segregated by law. The assets of the Fund cannot be used to meet the liabilities of another sub-fund.

Switches: You may request to switch from this Fund to another sub-fund of the Company or from this Share Class to another share class of the Fund, subject to conditions. Charges may apply. Please refer to the Prospectus and/or contact the Management Company or your distributor for further information.

Further information about the Fund, the Prospectus, latest annual report, subsequent half-yearly report, as well as other practical information, incl. where to find the latest prices of shares and information on other share classes marketed in your country, can be obtained from the Management Company iM Global Partner Asset Management S.A., 10-12 Boulevard Franklin D. Roosevelt, L-2450 Luxembourg / [client\\_services@imgp.com](mailto:client_services@imgp.com) or from the local representative or distributor. The Prospectus and periodic reports can be obtained in several languages, free of charge.

# What are the risks and what could I get in return ?

## Risk Indicator

Lower risk

Higher risk

The summary risk indicator assumes you keep the Fund until maturity end of the recommended holding period (5 years). The actual risk can vary significantly if you cash in at an early stage and you may get back less. The summary risk indicator is a guide to the level of risk of this Fund compared to other funds. It shows how likely it is that the Fund will lose money because of movements in the markets or because we are not able to pay you.

The Fund has been classified as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the Fund's capacity to pay you.

The figures do not take into account your personal tax situation, which may also affect how much you get back.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

**Operational risk:** Human or technical issues or errors during the processing of the transactions and/or the calculation of the NAV of the Fund may result in losses.

**Liquidity risk:** selling securities in low volume markets may imply a negative impact on the valuation which result in losses.

**Financial Derivatives risk:** Derivative transactions generate leverage which may emphasize losses whether the strategy (such as hedging, exposure, efficient portfolio management) does not react as expected under certain market conditions.

**Counterparty risk:** When a counterparty does not respect its obligation related to contracts such as term deposits or over-the-counter derivatives losses may occur.

For further information about the risks associated to this Fund, please see the full prospectus, available at the head office of the SICAV.

This Fund does not include any protection from future market performance so you could lose some or all of your investment.

## Performance Scenarios

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable, scenarios presented represent examples using the best and worst performances, as well as the average performance of the Fund and/or the appropriate benchmark indicator over the last 10 years.

Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

### Investment EUR 10,000

The recommended holding period is 5 years.		If you exit after 1 year	If you exit after 5 years (recommended holding period)

This table shows the money you could get back over the recommended holding period of 5 years, under the different scenarios, assuming you invest EUR 10,000.

Unfavourable scenario : this scenario occurred for an investment between 03/2015 and 03/2020.

Moderate scenario : this scenario occurred for an investment between 08/2014 and 08/2019.

Favourable scenario : this scenario occurred for an investment between 12/2018 and 12/2023.

## What happens if iM Global Partner Asset Management S.A. is unable to pay out ?

The position of the Management Company should not impact the payment for the redemption of shares in the Fund. The Depositary of the Fund is responsible for the safekeeping of its assets and it is required by law to segregate the assets of the Fund from its own assets. There is a potential default risk if the assets held with the Depositary (or with a third party to whom their custody has been delegated) are lost. The Depositary is generally liable to the Fund or its investors for such loss unless it is a result of an external event beyond its reasonable control. The Fund is not covered by any investor compensation scheme.

## What are the costs ?

The person advising on or selling this Fund may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment over time.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Fund performs as shown in the moderate scenario ;
- EUR 10 000 per year is invested

Investment EUR 10,000	If you exit after 1 year	If you exit after 5 years (recommended holding period)
Total costs	EUR 658	EUR 2,036
Annual cost impact (*)	6.6%	3.5% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 5.67% before costs and 2.18% after costs.

### Composition of Costs

Investment EUR 10,000 and annual cost impact if you exit after 1 year

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3.00% The impact of the costs you pay when entering your investment. This is the maximum you will pay and you could pay less. These costs are already included in the price you pay.	EUR 300
Exit costs	1.00% The impact of the costs of exiting your investment when it matures. This is the maximum you will pay and you could pay less.	EUR 100
Conversion fees	1.00% If applicable. Please refer to the conversion sections of the prospectus for applicable situations and conditions.	EUR 100
Ongoing costs (taken each year)		
Management fees and other administrative or operating costs	2.26% The impact of the costs that we take each year for managing this Fund. This is an estimate based on actual costs over the last year.	EUR 226
Transaction costs	0.32% The impact of the costs of us buying and selling underlying investments for this Fund. The actual amount will vary depending on how much we buy and sell.	EUR 32
Incidental costs taken under specific conditions		
Performance fees and carried interest	None	EUR 0

These tables show the impact the different costs have on the investment return you might get back at the recommended holding period and the meaning of the different cost categories.

## How long should I hold it and can I take the money out early ?

Recommended holding period : 5 years

Given the Fund's investment objective and policy and the target instruments and financial markets in which the Fund invests, the Fund may not be appropriate for investors who plan to withdraw their money before the recommended holding period.

Any shareholder is entitled, at any time and without limitation, unless otherwise specified, to have his/her Shares redeemed by the Fund.

Redemption applications must be sent in writing to the Transfer Agent and Registrar. Regardless of your holding period, a maximum redemption fee of 1% may apply. Please refer to the section "What are the costs?" for further details.

The value of the Fund can go down as well as up and you could get back less than you invested.

### What is this Product ?

#### Type

The Fund is a sub-fund of iMGP, a public limited liability company (société anonyme), incorporated as a "société d'investissement à capital variable" under the Luxembourg law of 17 December 2010 relating to undertakings for collective investment and qualifying as a UCITS. The product offered to you is a Share Class of the Fund.

#### Term

The Fund has no maturity date. It has been established for an unlimited duration and the PRIIP Manufacturer is not entitled to terminate it unilaterally. The Fund and the Share Class may be terminated early and liquidated in those cases set out in the prospectus and the articles of incorporation of the Company.

#### Objectives

This Fund aims to deliver a minimum return of cash (BofAML US 3-Month Treasury Bill Index (G001)) +4% per annum on a rolling 5-year basis. The Fund may invest flexibly and with no geographical limitation between different types of investment: equities (including small & mid capitalisations on an ancillary basis), all types of bonds (including high-yield bonds, convertible bonds and contingent convertible bonds, subordinated, perpetual and inflation-linked bonds), cash, money market instruments, currencies, including emerging market currencies, as well as commodities, at the global level, including emerging countries. Depending on market conditions, one type of investment may account, either directly and/or indirectly, for a significant proportion of the Fund exposure. Equity investment may account, directly and/or indirectly, up to a maximum of 75% of the Fund net assets. The Fund may also invest in structured products, such as in particular certificates or other transferable securities the yield on which would, for example, be indexed to the movement of an index, transferable securities, money market instruments, commodities or UCIs, or a basket thereof.

The Fund promotes environmental and social characteristics according to article 8 of the Regulation (EU) 2019/2088 but does not have sustainable investment as its objective.

The Sub-Manager believes that Environmental, Social and Governance (ESG) consideration allows for long-term value creation, allowing to foster a positive change. The Management Company has adopted for this purpose an ESG policy which may be consulted on [www.imgp.com](http://www.imgp.com).

According to the ESG policy, each invested security will be subject to a thorough assessment based on a variety of ESG factors provided by external sources and possibly complemented by Sub-Manager internal research.

For the purpose of attaining environmental or social characteristics promoted by the Fund, the portfolio seeks to achieve an ESG Quality Score as measured by the Sub-Manager methodology in the first tercile of the score range. The carbon intensity of the portfolio is also monitored.

Certain companies or securities with negative social or environmental impact are excluded from the investment universe of the Fund.

The Fund is managed actively and the Sub-Managers' discretionary powers are not constrained by the Index. Although the Sub-Managers may take into consideration the Index composition, the Fund may bear little resemblance to the Index. The securities selection is based on relative value, internal and external analysis and portfolio construction consideration.

The Fund exposure to gold and precious metals shall only be achieved by means of eligible instruments and shall be limited to a maximum of 20% of its net assets.

Profits are not distributed but are accumulated by the Fund. Recommendation: this Sub-fund may not be appropriate for investors who plan to withdraw their money in less than 5 years.

The share class is denominated in another currency than the base currency of the Fund. The exchange rate risk of this class is hedged against the base currency of the Fund. However, full hedging cannot be guaranteed.

#### Intended retail investor

This Fund is aimed more particularly at investors who wish to achieve capital growth thanks to a flexible asset allocation of their investments while seeking a risk level lower than that of the stock market alone, who are capable of evaluating the merits and risks of such an investment, who are able to bear the loss of their entire investment and who have an investment horizon of at least 5 years.

This Share Class may be subscribed by any type of investor. Investors are advised to invest only a part of their assets in such a Fund.

The actual risk can vary significantly if you cash in at an early stage and you may get back less. The summary risk indicator is a guide to the level of risk of this Fund compared to other funds. It shows how likely it is that the Fund will lose money because of movements in the markets or because we are not able to pay you.

The Fund has been classified as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions are unlikely to impact the Fund's capacity to pay you.

The figures do not take into account your personal tax situation, which may also affect how much you get back.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

**Operational risk:** Human or technical issues or errors during the processing of the transactions and/or the calculation of the NAV of the Fund may result in losses.

**Liquidity risk:** selling securities in low volume markets may imply a negative impact on the valuation which result in losses.

**Counterparty risk:** When a counterparty does not respect its obligation related to contracts such as term deposits or over-the-counter derivatives losses may occur.

**Credit risk:** When issuers default on their payment obligations, unexpected losses may occur on any type of assets linked to them.

**Contingent Convertible ("Coco bond") risk :** The value of a Coco bond is strongly linked to the valuation and/or the capital conditions of its issuer. A total loss or a conversion to equity may occur when regulatory or issuer-motivated triggering events happen.

**Structured/Complex Fund risk:** Those Funds are constructed over a specific scenario and/or may react atypically to each individual risk (among others, those mentioned in this section). In case of extreme and/or specific market conditions, Funds may become valueless.

For further information about the risks associated to this Fund, please see the full prospectus, available at the head office of the SICAV.

This Fund does not include any protection from future market performance so you could lose some or all of your investment.

The Fund and the Share Class may be terminated early and liquidated in those cases set out in the prospectus and the articles of incorporation of the Company.

#### Objectives

The objective of this Fund is to provide its investors with an appreciation of their investment mainly through a portfolio consisting of bonds of U.S. or other issuers and denominated in USD. At least two thirds of the Fund's assets, after deduction of cash, are invested at all times in bonds denominated in USD.

The Fund promotes environmental and social characteristics according to article 8 of the Regulation (EU) 2019/2088 but does not have sustainable investment as its objective.

The Sub-Manager believes that Environmental, Social and Governance (ESG) consideration allows for long-term value creation, allowing to foster a positive change. The Management Company has adopted for this purpose an ESG policy which may be consulted on [www.imgp.com](http://www.imgp.com).

According to the ESG policy, each invested bond will be subject to a thorough assessment based on a variety of ESG factors provided by external sources and possibly complemented by Sub-Manager internal research.

For the purpose of attaining environmental or social characteristics promoted by the Fund, the portfolio seeks to achieve a Carbon Risk Score as measured by the Sub-Manager methodology lower than 10 on a scale from 0 (negligible) to 50+ (severe). The ESG Risk score and the carbon intensity of the portfolio are also monitored.

Certain companies with negative environmental impact (such as companies that derive more than 5% of their revenues from fossil fuels like coal, oil or gas) are excluded from the investment universe of the Fund.

The Bloomberg Barclays US Intermediate Credit index is used, in the appropriate currency of a given Share Class of the Fund, for comparison only, including for performance comparison.

The Fund is actively managed and the Sub-Manager's discretionary powers are not constrained by the index. Although the Sub-Manager may take into consideration the index composition, the Fund may bear little resemblance to the index.

The Fund can invest in any type of debt security (fixed rate, variable rates, fix-to-float, ...) denominated in USD, including but not limited to debt securities issued or guaranteed by a country member of the OECD,

debt issued by government agencies, corporate debt.

The Fund is actively managed and the Sub-Manager's discretionary powers are not constrained by the index. Although the Sub-Manager may take into consideration the index composition, the Fund may bear little resemblance to the index.

The Fund may invest:

- up to a maximum of 20% of its net assets in bonds issued in USD by corporate whose headquarter and their main center of affairs is in another OECD country among which up to 10% can be emerging countries; up to a maximum of 25% of its net assets into non-rated or high yield bonds; up to a maximum of 25% of its net assets in 144A Securities; up to a maximum of 10% of its net assets in units of UCITS and/or other UCIs.

The Fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities and for investment purposes.

Profits are not distributed but are accumulated by the Fund.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money in less than 3 years.

The share class is denominated in another currency than the base currency of the Fund. The exchange rate risk of this class is hedged against the base currency of the Fund. However, full hedging cannot be guaranteed.

#### Intended retail investor

This Fund is aimed more particularly at investors who wish to benefit from the performance of bonds on the different financial target markets, who are capable of evaluating the merits and risks of such an investment, who are able to bear the loss of their entire investment and who have an investment horizon of at least 3 years.

This Share Class may be subscribed by any type of investor. Investors are advised to invest only a part of their assets in such a Fund.

#### Practical information

Depository: CACEIS Bank, Luxembourg Branch

This Fund is a sub-fund of an umbrella fund (the Company). This document describes the Fund and the share class stated above, while the Prospectus and periodic reports are prepared for the Company. ## Risk Indicator

Lower risk

Higher risk

The summary risk indicator assumes you keep the Fund until maturity end of the recommended holding period (3 years). The actual risk can vary significantly if you cash in at an early stage and you may get back less. The summary risk indicator is a guide to the level of risk of this Fund compared to other funds. It shows how likely it is that the Fund will lose money because of movements in the markets or because we are not able to pay you.

The Fund has been classified as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the Fund's capacity to pay you.

The figures do not take into account your personal tax situation, which may also affect how much you get back.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

**Operational risk:** Human or technical issues or errors during the processing of the transactions and/or the calculation of the NAV of the Fund may result in losses.

**Liquidity risk:** selling securities in low volume markets may imply a negative impact on the valuation which result in losses.

**Financial Derivatives risk:** Derivative transactions generate leverage which may emphasize losses whether the strategy (such as hedging, exposure, efficient portfolio management) does not react as expected under certain market conditions.

**Counterparty risk:** When a counterparty does not respect its obligation related to contracts such as term deposits or over-the-counter derivatives losses may occur.

**Credit risk:** When issuers default on their payment obligations, unexpected losses may occur on any type of assets linked to them.

For further information about the risks associated to this Fund, please see the full prospectus, available at the head office of the SICAV.

This Fund does not include any protection from future market performance so you could lose some or all of your investment.

## Performance Scenarios

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable, scenarios presented represent examples using the best and worst performances, as well as the average performance of the Fund and/or the appropriate benchmark indicator over the last 10 years.

Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Favourable scenario : this scenario occurred for an investment between 07/2018 and 07/2021.

## What happens if iM Global Partner Asset Management S.A. is unable to pay out ?

The position of the Management Company should not impact the payment for the redemption of shares in the Fund. The Depositary of the Fund is responsible for the safekeeping of its assets and it is required by law to segregate the assets of the Fund from its own assets. There is a potential default risk if the assets held with the Depositary (or with a third party to whom their custody has been delegated) are lost. The Depositary is generally liable to the Fund or its investors for such loss unless it is a result of an external event beyond its reasonable control. The Fund is not covered by any investor compensation scheme.

## What are the costs ?

The person advising on or selling this Fund may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment over time.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Fund performs as shown in the moderate scenario ;
- EUR 10 000 per year is invested

Investment EUR 10,000	If you exit after 1 year	If you exit after 3 years (recommended holding period)
Total costs	EUR 575	EUR 975
Annual cost impact (*)	5.8%	3.1% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 3.27% before costs and 0.13% after costs.

### Composition of Costs

Investment EUR 10,000 and annual cost impact if you exit after 1 year

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3.00% The impact of the costs you pay when entering your investment. This is the maximum you will pay and you could pay less. These costs are already included in the price you pay.	EUR 300
Exit costs	1.00% The impact of the costs of exiting your investment when it matures. This is the maximum you will pay and you could pay less.	EUR 100
Conversion fees	1.00% If applicable. Please refer to the conversion sections of the prospectus for applicable situations and conditions.	EUR 100
Ongoing costs (taken each year)		
Management fees and other administrative or operating costs	1.59% The impact of the costs that we take each year for managing this Fund. This is an estimate based on actual costs over the last year.	EUR 159
Transaction costs	0.16% The impact of the costs of us buying and selling underlying investments for this Fund. The actual amount will vary depending on how much we buy and sell.	EUR 16
Incidental costs taken under specific conditions		
Performance fees and carried interest	None	EUR 0

These tables show the impact the different costs have on the investment return you might get back at the recommended holding period and the meaning of the different cost categories.

## How long should I hold it and can I take the money out early ?

Recommended holding period : 3 years

Given the Fund's investment objective and policy and the target instruments and financial markets in which the Fund invests, the Fund may not be appropriate for investors who plan to withdraw their money before the recommended holding period.

Any shareholder is entitled, at any time and without limitation, unless otherwise specified, to have his/her Shares redeemed by the Fund.

Redemption applications must be sent in writing to the Transfer Agent and Registrar. Regardless of your holding period, a maximum redemption fee of 1% may apply. Please refer to the section "What are the costs?" for further details.

The value of the Fund can go down as well as up and you could get back less than you invested.

Document valid as at: 01.05.2024

Warning : You are about to purchase a Fund that is not simple and may be difficult to understand.

### What is this Product ?

#### Type

The Fund is a sub-fund of iMGP, a public limited liability company (société anonyme), incorporated as a "société d'investissement à capital variable" under the Luxembourg law of 17 December 2010 relating to undertakings for collective investment and qualifying as a UCITS. The product offered to you is a Share Class of the Fund.

#### Term

The Fund has no maturity date. It has been established for an unlimited duration and the PRIIP Manufacturer is not entitled to terminate it unilaterally. The Fund and the Share Class may be terminated early and liquidated in those cases set out in the prospectus and the articles of incorporation of the Company.

#### Objectives

The objective of this Fund is to maximise long term capital growth by investing at all times for at least 75% of the Fund assets in equities or similar instruments issued by companies based in a member state of the EU, in Norway, Iceland and United Kingdom. It can also invest in equities and other similar instruments issued by companies having their registered office in other European countries, or having a predominant proportion of their assets or interests in Europe, or operating predominantly in or from this geographical area.

The Fund has sustainable investment as objective according to article 9 of the Regulation (EU) 2019/2088.

The Sub-Manager believes that Environmental, Social and Governance (ESG) consideration allows for long-term value creation, allowing to foster a positive change. The Management Company has adopted for this purpose an ESG policy which may be consulted on [www.imgp.com](http://www.imgp.com). According to the ESG policy, each invested security will be subject to a thorough assessment based on a variety of ESG factors provided by external sources possibly complemented by internal research.

The Fund makes sustainable investments which contribute to environmental and social objectives. A minimum of 5% of the portfolio is considered to be aligned with the EU Regulation on the establishment of a framework to facilitate sustainable investment (the "Taxonomy Regulation"). The Sub-Manager selects shares in companies that provide solutions to critical social and environmental challenges that are facing the global population over the next few decades and which are falling within certain Sustainable Investment Themes, which are at present:

(1) cleaner energy, (2) environmental services, (3) resource efficiency, (4) sustainable transport, (5) water management, (6) education, (7) health, (8) safety and (9) well-being. In order to qualify for investment, at least half of the company's revenues must be derived from products and services with a positive social and/or environmental impact (as set out below) related to the Fund Sustainable Investment Themes.

From this universe the Sub-Manager uses a proprietary methodology to assess the impact 'intensity' of a company's products and services.

The Sub-Manager selects stocks it perceives as promising i.e. those companies chosen as part of the universe that provide solutions to sustainability challenges falling within the Sustainable Investment Themes, and analyses the fundamentals of such companies (such as financial information and management commentary, as reported in quarterly or annual statements, press releases or other public venues) to determine the dimensions of their positive social and/or environmental product impact. Additionally, the Sub-Manager reviews the ESG quality of the company's policies and practices as part of its investment process to identify business and management quality.

The Bloomberg Europe Developed Markets Large & Mid Cap Net Return Index is used, in the appropriate currency of a given Share Class of the Fund, for comparison only, including for performance comparison. The Fund is actively managed and the Sub-Manager's discretionary powers are not constrained by the index. Although the Sub-Manager may take into consideration the index composition, the Fund may bear little resemblance to the index.

Profits are not distributed but are accumulated by the Fund.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money in less than 5 years.

#### Intended retail investor

This Fund is aimed more particularly at investors who wish to benefit from the performance of shares on the different target financial markets, who are capable of evaluating the merits and risks of such an investment, who are able to bear the loss of their entire investment and who have an investment horizon of at least 5 years.

This Share Class may be subscribed by any type of investor. Investors are advised to invest only a part of their assets in such a Fund.
